Re: Keyask Hydro Project

I am Anton, and I am in Grade 11. This is what I think of the dam. If the dam is made then were going to lose trees, animals maybe even homes. Split Lake is a small community they shouldnt build it. There is enough jobs already for the people. Despite all the people on welfare but this project should be a no go. I just think it is a waste of time waste of our beautiful land and a waste of life and work.
