To: CLEAN ENVIRONMENT COMMISSION  
RE: KEYASK HYDRO PROJECT

My name is Davida.

I am in grade 10 and 11. What I think about this is that it's a good idea for the community of split lake.

We are the 5 communities that were affected by the flooding. We need to change our communities for the youth.

There is a lot of kids born every year and they don't know what is happening. It is sad because we don't know what is gonna happen in the future for the children. To whom it may concern, do what you have to do, just fix our communities and get a better environment.
