

Overall outline

- Introduction (Maggie Bratland)
- Land and Resource Use (Frank Bohlken)
- Agriculture (David Whetter)
- Visual Quality (Frank Bohlken)
- Human Health (Dr. Bryan Leece)
- Community Health (Frank Bohlken)
- Heritage (David McLeod, Butch Amundson)

3

Socioeconomic context

4

Overview What We Heard What We Assessed Key Findings Mitigation, Monitoring and Follow-up Conclusions

Engagement feedback

- Support the selection and scope of Valued Components
- Local knowledge regarding past, current and future land uses (PEP, FMNEP, self-directed studies)

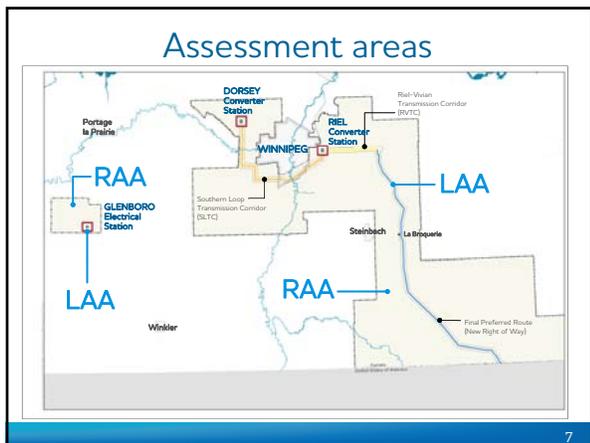

5

Overview What We Heard What We Assessed Key Findings Mitigation, Monitoring and Follow-up Conclusions

Lessons learned

- Consider individuals (effects and mitigation) and broader issues
- Importance of considering planned development (subdivisions)
- Manitoba-based research
- Highlighted in each presentation

6

Overview What We Heard What We Assessed Key Findings Mitigation, Monitoring and Follow-up Conclusions

Considerations in routing

- Use of existing corridors
- Areas of Least Preference
- Consideration in evaluation criteria both - Alternative Route Evaluation and Preference Determination steps
- Avoidance as a result of FPR selected

Overview What We Heard What We Assessed Key Findings Mitigation, Monitoring and Follow-up Conclusions

Methods

- Desktop review, literature searches
- Field studies
- Simulations
- Modelling and analysis
- Key person interviews
- Consideration of engagement feedback

Overview | What We Heard | What We Assessed | Key Findings | **Mitigation, Monitoring and Follow-up** | Conclusions

Mitigation measures

- Design considerations
 - (ex. routing, tower type, placement)
- Use of existing access, access management plan
- Cultural and Heritage Resource Protection Plan (CHRPP)
- Biosecurity program
- Landowner compensation program

10

Overview | What We Heard | What We Assessed | Key Findings | **Mitigation, Monitoring and Follow-up** | Conclusions

Next

- Land and Resource Use
- Agriculture
- Visual Quality
- Community Health and Well-being
- Human Health Risk
- Heritage Resources
- Infrastructure and Services
- Employment and Economy
