

This is in response to **Undertaking No. MC-77** as outlined on Page No. 5263, Volume 22, of the transcript of the May 11, 2004 proceedings of the Manitoba Clean Environment Commission concerning the proposed Wuskwatim Generation and Transmission Project. The requested undertaking is outlined below:

**“Provide information regarding MMF locals being present at consultations to date under stage 2”**

The Water Branch, Manitoba Water Stewardship, has conducted consultations with three (3) Northern Affairs Communities during Phase 2 of its consultation process. These communities are Pikwitonei, Wabowden and Thicket Portage.

Officials of these communities have indicated that there have been Metis present at the consultation meetings. In addition, during the community meeting in Thicket Portage, a local representative of the MMF was present
