File Name: Commissio

JAN. 25-'07. SUBMISSION TO THE MANITOBA CLEAN ENVIRONMENT COMMISSION SCOPING HEARINGS RE: THE SUSTAINABILITY OF HOG BARN DEVELOPMENT IN THE PROVINCE.

## Dear C.E.C.,

We the undersigned, reside in the vicinity of the Town of Roblin, Manitoba. In 2000, (operating as "Citizens Against Factory Farms") we banded together to struggle against a secretive plan for a massive complex of hog factories in our community. We collected extensive research from around the world and soon discovered this kind of development to be a misguided method of food production and a blight on many hitherto happy communities. Here is a brief summary of our findings, which we respectfully suggest *must* be included on your agenda for future meetings on this matter.

animals that we cat, like the p

sembly-line-style." compre

# P2. C.F.F.F. SUBMISSION TO THE C.E.C.

### Factory hog barns create;

1) <u>HEALTH PROBLEMS:</u> Reputable medical institutions like the Centres for Disease Control, the U.S. Food and Drug Administration and the Canadian Medical Association, all warn that the long-standing overuse of antibiotics in raising the animals that we eat, like the pigs we produce "assembly-line-style," compromises the effectiveness of these drugs in fighting serious human infection.

2) ENVIRONMENTAL POLLUTION: The slurry produced by millions of hogs *is* escaping from lagoons and spread-fields into our waterways. Knee jerk denials from industry notwithstanding, this slurry is a significant culprit in the eutrophication of lakes, rivers and streams. (NOTE: Manitoba now has enough hogs to produce waste comparable to that of the entire human population of Canada!)

<Cont'd.>

Scanda/onsiv theory from our committee several genes are also was a ty representation from Mannob 8.9

3) <u>CONFLICT-OF-INTEREST:</u> The history of hog factories here and elsewhere is rife with tales of corruption among approving authorities. This includes attempts (successful or otherwise) by elected officials to benefit financially if these industries go ahead.

4) <u>SECRECY</u>; It was apparent here that the public was not supposed to know too much, if anything about a network of hog factories until the planning was well developed and land deals put into place.

5) <u>COERCION</u>: At least three people linked to our citizens' group were threatened with either loss of job or business if they spoke out publicly.

6) <u>FLAWED APPROVAL PROCESS</u>: Technical Review Committees are notorious for their bias toward proponents and their neglect of evidence of negative environmental consequences. Also familiar here and elsewhere are cozy relationships between appointees to the Committees who are also involved in the factory farm business.

<See Over>

Scandalously absent from our Committee several years ago was any representation from Manitoba Health!

Thanks for your consideration.

toward proposets and their neglect of coldered of negative savironmental consequences. Also tendiar here and elsewhere are cozy relationships between appointees to the Committees whe also also involved to the factory large business.

#### CITIZEN/INDIVIDUAL STATEMENT REQUEST

1. Proposal : To make a submission at a CEC public hearing into the hog

#### industry.

- 2. Name: Larry Powell
- 3. Address: Box 5 Grp 11 RR 1
- 4. Phone Number: Business: (204) 937-3055

Home: Same

Cell: (204) 937-0205

Fax No.:

E-mail: earthkeeperfarm@yahoo.ca

5. Subject of Statement: Submission on behalf of "Citizens for Family

Farms" supporting the current moratorium on hog barn construction.

6. Available Date(s): Mar. 20th

7. Available Time(s): 1-5pm

8. Preferred Location: Dauphin MB

Mail to: Manitoba Clean Environment Commission

305-155 Carlton St.

Winnipeg, Manitoba R3C 3H8

Fax to: 204-945-0090

E-mail to: cajohnson@gov.mb.ca (Already emailed on Mor. 9. 07)
