Re: Keeyask Hydro project

I am Braden Ross, I am 15 years old and in Grade 10. This is what I think about this Keeyask Hydro project. This dam will be bad in some way to all of the 5 communities. It will cause a lot of tension and anger between the communities and Keeyask Hydro. The dispute will be about rights and promises that the Keeyask Hydro will break the people that make the dams are in it for the money, they only think of themselves. This dam will cause water to rise or the water will go low. It will affect the animals in our lakes, rivers, streams, and ponds. Our fish will be unedible. The land will be all smelling and we won't be able to have nice medicine.
