

To Clean Environment Commission

To Whom it may concern

Re Keeyask Hydro Project

I am Garrett Chesney Evans front

I am in grade 10

This is what I think about the project. It is good and bad to the environment, but the dam can make money for our community, and help support people that live on welfare, and we can probably get more things in Cross Lake. Some people will take this seriously that they don't understand. Some people won't even care about what's going on, but my opinion yeah they should make a dam, it won't hardly effect anything it will just make money and electricity. That's what I think about this

The End.
