My name is Lanigan Mustard I am one of the many Mustards born and raised on our farm [REDACTED] Actually my sister Stormy-Callaghan was born on the farm during the storm in 1986. If this project goes though it will ruin several generations of our quiet living. Also we have three houses on this property that each have a well also there is a four well. When Silo Silica drills into the aquifers and they will that pollutes all four wells and thousands more. I hope you will consider this in your judgement. Know that the way they have advertised in all the News Papers and communications Radio and T.V. they did not mention the damage it would cause across Manitoba that it only looked to be a Vivian concern. Thousands of jobs cannot bring back clear drinking water to millions. Thank you for reading this. Lanigan Mustard
