To Whom It May Concern,

Please be advised that I would like to add my name to the list of concerned citizens who oppose the proposed Silica Sand Extraction Project in Vivian, Mb. This is unbelievable that the project includes over 85,000 hectares of land that may be affected by this destructive process which includes contamination of the Sandilands Aquifer system in Southeastern Manitoba. Mining has no place in a drinking aquifer. Why are we putting mining extraction ahead of the health of our citizens? Drinking water should always be protected for obvious reasons.

I am asking that you please rethink this Silica Sand mining operation in Vivian, Mb and deny their license.

Linda Gawryluk
