To whom it may concern,

We would like to express our concerns over the Sio Silica project happening in Vivian. As long time rural residents of Oakbank, we are very concerned that this project will affect the quality of our drinking water. We have never had an issue with our well or the quality of water coming from it and we certainly do not support any project that would jeopardize the safety of drinking water for so many residents.

We entrust the appropriate government offices to protect our natural resources and the environment. Proceeding with this project without providing guarantee of safety and protection to residents is both irresponsible and shortsighted.

Sincerely,
Jason and Sarah Mueller
