“As you will already be aware as this hearing and the evidence from ALL the sources accumulates and is reviewed, SIO Silica’s project creates significant risk to the **only** water supply for ALL of southeastern Manitoba – approximately 100,000 residents and existing business. Our environment and only water supply must be protected from the impact of this project, especially given the already existing risks – like DROUGHT - presented in a time of climate change. I oppose this project. Please recommend to the Minister **to deny** this licence.”

Sandra & Kevin Cook
