To whom it may concern:

It appears that the minds may have already been made up by those who are supposed to protect our community's Essential Resources. However, whether or not your department has been swayed by corporate pay-offs and shareholding, I would like to add my voice to the vast majority of Manitobans who, if fully informed on the "Sio Silica" project proposal here, would be against it.

What is best for the residents of Manitoba? The residents are who knows best. Please listen to us.

Please do the right thing for those of us who live here, and make guarantee that we can have a Clean Environment, beginning with our water.... Leave it alone.

WATER IS LIFE.

M Hajzler
