As a long time Springfield resident (60+years) I have always had clean clear drinkable water. To put this precious commodity at risk is unacceptable.

I am 100% OPPOSED to this project and it needs to be shut down.

Life without water is not life! We need to protect our water source before it is too late and for what the almighty dollar! Please listen to the people and Dr Pipp.

Thank you for your time and I hope you listen to the people.
Patricia Rosmus
