To whom it may concern,

I'm writing to the Clean Environment Commission to oppose Sio Silica's Silica Sand Extraction Project in southeastern Manitoba.

It has come to my attention that the mining technique that has been proposed by Sio Silica is untested and unproven, and risks the only source of drinking water for thousands of my fellow Manitobans.

Communities across the world struggle to access clean drinking water — we shouldn't be risking ours for profit.

Sincerely,

*Travis Lee Blahitka*
