Hi there,

I have lived in the Springfield area for 25 years, and plan on starting a family and raising my children here. I strongly oppose the proposed silica sand mine in Vivian, Manitoba. I am a young person concerned about our environment and drinking water. I rely on the government to look after my future and make sure things are safe.

Please take this into consideration and stop this from happening. Our generation has too many problems to worry about now and we do not need more.

Best regards,

Taylor Krasulja
