I have lived in Springfield, Manitoba for 23 years, my entire life. I strongly oppose the Sio Silica Vivian sands mining and extraction project. The company has admitted that their procedures and technology for this project are untried and undocumented elsewhere. There are many experts warning us that our aquifer and drinking water could be contaminated. I am concerned for the environment and for how our young generation will handle potential pollution of the aquifer.

Please deny the license for this company.

Thank you.

Derek Whyte
