To whom it may concern, I am not a resident of the immediate area surrounding proposed site, however, as a resident of the Province of Manitoba, I would like to express my concern with proceeding with this project. The detrimental effects of the proposed mine are going to impact local residents drinking water source for generations to come. This will also have a broad reach to affect other abutting jurisdictions and eventually Lake Winnipeg. It must be stopped for the health of our Environment.

Regards,

Audry Letain
