To the Government for safe guarding our most required Resurce:

I live in Anola and I strongly oppose allowing this or any company to extract Silica Sand from our area or any area for that matter as it is extremely dangerous to our Fresh Water Supply and should not be tampered with! Also, the entire area would no longer be an area of peace and tranquility as the mining would disrupt everything! Nature, our air quality, the silence at night as well as during the day, as well as our roads which are bad enough as it is, and the traffic is already extremely heavy at all times of the day and night and therefore, I strongly OPPOSE allowing this or any company to affect our Peaceful, Quiet Nature Oasis that we live in, all for money!

Let us all for once be concerned about our environment and the families that live here because of the Peaceful Nature and Tranquility which led us to purchase land out here in the first place, we do not want that to change and we definitely want to protect our Water Resource and the Natural Environment that we live in!!!

Please put a stop to changing our Landscape and lives and the Precious Natural Resources where we live!!!

Sincerely,

Rev. Harold Borchardt
