Hi My name is Ryder Mustard and I am
12 years old and I
Live at 54019 PR 302

My Dad told me that this
place where we live is special
and hard to come by.

I don't think this will be so
special once this is an industrial
site.

We learn about protecting the
environment in school and see it
all over the tv.

We are suppose to protect our land
and water.

We have taken steps at home
to improve on recycling and
conserving water.

I Love going into the bush
to explore with my older brothers
we build forts and enjoy the
sounds of nature.

we love sitting out in our yard
at night and stare up at the stars.
every thing is so peaceful.

I have listened to the pros and
cons about this project and I don't
feel this is safe for my family!
