Good morning Cathy,

I am a resident of the Springfield area and from the beginning I have been opposed to the Sio Silica project.

Although I am interested in the economical growth of my community, our water is my biggest priority. It is our most valuable asset.

Too many vagues and unknowns are in this project. No one knows what will happen to our aquifer in 5, 10 or 15 years if this goes forward.

After millions or billions have been made, this company will not care about the consequences.

I am asking you on my and my family's behalf to please stop this project.

Thank you.

Best regards

Tatjana Burau
