To whom it may concern...I'm writing to ask you not to give a license to Sio Silica Co to drill into our aquifer. Their method has never been done and they are using our aquifer as guinea pigs...If there is even the slightest chance of them contaminating our aquifer, then they should be denied a license..This is our drinking water and if contaminated there will be no fix and thousands of people whose wells draw water from that aquifer won't have water for themselves or their animals. There is no room for Error on our aquifer so please deny them a license...Thank you for listening

We live approximately 3 and a half miles from their drilling site

Sincerely Ernst & Gail Hartje
