Dear sirs, Madams

My name is Carol Kulczycki and I'm writing this letter to voice my total opposition to the Sio Silica Sand mining in the aquifer near Vivian, Manitoba. I am a 27 year resident of the Springfield Municipality and I would be strongly affected if mining in the aquifer is allowed to happen. Our water is our life. Right now I am blessed with the best drinking water and do not want that to change under any circumstances especially corporate greed.

We all have to do what is right for our environment not something so destructive as Sio Silica Sand Mining in our aquifer. As for the people who agree with the mining they either don't live in what will be the affected aquifer or they choose to be ill informed because of the lies being told to all of us.

Totally opposed
Carol Kulczycki
