To whom it may concern,

I am writing in support of the Sio Silica Project. I live in Springfield and have become concerned with the tone and level of social media opposition to the CEC investigation.

The tone is reminiscent of the anti-vaccination protests during the Covid crisis. It seems common sense to allow the government experts to do their investigation before gathering pitchforks and torches to storm Frankenstein's Castle.

I live in this community and also drink the water. I would never support a project that would cause my family and community harm.

Let the government do their job and do not be distracted by fear mongering.

Please contact me if you would like to discuss further.
