

To whom it may concern,

EXHIBIT NUMBER: WSUB-041

File Name: Hog Review

Date: May 6, 2007

Received by: [Signature]
(Commission Secretary)

I am a hog farmer. It is a family farm. My family and I own and operate it. We also live on this farm and drink the water. We would do nothing that could harm the water or environments we live on site. The pause on hog expansion is unfair as we produce only 1.5 of phosphorus. We are doing our part and I think other industries should also be held accountable as should the US and other provinces. Our family farm will suffer if the moratorium will continue.

Sincerely
